### **DETAILED ACTION**

1. This communication is in response to applicant's submission filed December 4, 2006. Claims 3-5, 7-8, 11, 15-18, and 20-25 have been amended. Claims 1-25 are currently pending in this case.

#### ***Election/Restrictions***

2. Applicant's response to the requirement for restriction issued on October 23, 2006 is acknowledged. The said requirement is hereby withdrawn.

#### ***Response to Arguments***

3. Applicant's arguments with respect to claims 1-25 have been considered but are moot in view of the new ground(s) of rejection.

#### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter that the applicant regards as his invention.

5. Claims 1-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically, nowhere do the independent claims actually arrive at the point of determining the promised (in the preamble) opening price. Thus, the claims do not properly set forth the metes and bounds of the instant invention.

6. Claims 1-25 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: the actual arrival at an

Art Unit: 3621

opening promise as promised in the preamble of the claims. Thus, the claims do not properly set forth the metes and bounds of the instant invention.

7. Claims 1-25 rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: the actual arrival at an opening promise as promised in the preamble of the claims. Thus, the claims do not properly set forth the metes and bounds of the instant invention.

***Claim Rejections - 35 USC § 101***

8. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

9. Claims 1-25 are rejected under 35 U.S.C. 101 because the disclosed invention is inoperative and therefore lacks utility. Specifically, nowhere do the independent claims actually arrive at the point of determining the promised (in the preamble) opening price.

***Allowable Subject Matter***

10. Claims 1-25 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, first and 2nd paragraph, and 35 U.S.C. 101 set forth in this Office action.
